

### 3e Koppelwedstrijd O.N.I. 8-7-2018

Mede mogelijk gemaakt door:

| Nr. | Naam                                  | Plaatsnummer | Gewicht | Punten |
|-----|---------------------------------------|--------------|---------|--------|
| 1   | Ronnie van Acker / Alex Uytendaele    | 40           | 9140    | 1      |
| 2   | Ronny Mussche / Jhonny Mussche        | 30           | 4380    | 2      |
| 3   | Kurt van de Hende / Tony van de Hende | 32           | 3800    | 3      |
| 4   | Danny Geerinck / Danny Nachtegael     | 34           | 3760    | 4      |
| 5   | Willem Cornelis / Daniel Audenaert    | 18           | 3380    | 5      |
| 6   | Marc Paulus / Mike Ruitenbeek         | 26           | 2900    | 6      |
| 7   | Dirk de Meyer / Rudi Zaman            | 22           | 2560    | 7      |
| 8   | Evert Gillis / Pierre Gillis          | 36           | 1920    | 8      |
| 9   | Willy Aerens / Ghislain Marquenie     | 24           | 1240    | 9      |
| 10  | Ben van de Bos / Maarten van de Eijck | 20           | 960     | 10     |
| 11  | Freddy Melkebeke / Dirk van Hecke     | 38           | 680     | 11     |
|     |                                       |              |         |        |
|     |                                       |              |         |        |
|     |                                       |              |         |        |
|     |                                       |              |         |        |
|     |                                       |              |         |        |
|     |                                       |              |         |        |
|     |                                       |              |         |        |
|     |                                       |              |         |        |
|     |                                       |              |         |        |
|     |                                       |              |         |        |
|     |                                       |              |         |        |
|     |                                       |              |         |        |
|     |                                       |              |         |        |
|     |                                       |              |         |        |
|     |                                       |              |         |        |
|     |                                       |              |         |        |
|     |                                       |              |         |        |
|     |                                       |              |         |        |
|     |                                       |              |         |        |
|     |                                       |              |         |        |
|     |                                       | Totaal       | 34720   |        |
